

The JDRF Greater Dallas Chapter invites you to attend our Diabetes Mentorship Training Session

The **JDRF Mentor Program** matches individuals and families looking for support with others that have lived with diabetes and **we need your help!**

JDRF Mentors are the voices of hope and experience for the families facing an unfamiliar lifestyle after diagnosis or during a new stage of their child's life. It's about sharing, helping, listening and creating new friendships with people who understand the ever-changing demands of living with T1D.

As a mentor you will be responsible for contacting families who are looking for support and resources. We will give you all the tools and information you will need to be successful in this important volunteer role. **We hope you can join us!**
